## Real Stories about Real Smiles.

**Q: Why did you have the cosmetic dental work done?**

My mouth was destined to be a disaster. The first time I went to the dentist was when I was 10-years old. Our family was poor and my mother finally got us boys treated for practically no cost at the Oregon Dental School in Portland, Oregon. The Problem: I had 34 cavities the first visit!. My brother had 27 cavities. I guess I won that contest...sort of.

With a start like that, it was all down hill from there. No amount of good, future dental care was going to completely make up for such a bad start.

At 62 years of age, it was time to get my smile back.

**Q: What was the cosmetic dental process like?**

Because Dr. Utley essentially re-made my entire smile, it took six visits—some visits up to three hours or so. The good news was that he accomplished an amazing amount of work in a single visit. For example, one visit repaired and prepped 11 teeth for crowns.

The normal flow of work was to prep the teeth and make temporaries. Ten days to two weeks later, I returned to have the permanent teeth placed and adjusted.

The final visit was to adjust the bite and make sure everything worked perfectly.

**Q: How did you feel about your new smile?**

What can I say that speaks louder than the before and after photos? Dr. Utley created a masterpiece smile with a lot of technology and an even greater amount of talent.

It's kind of funny to watch the faces of people who know me. Several have said they noticed something different about me, but thought it was that I shaved my beard off or finally combed my hair...ha!

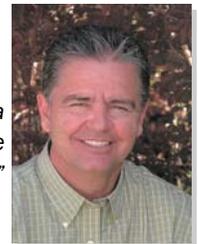

My family was so impressed with the new smile that I got compliments on the temporaries even before my real smile was all done. That's pretty impressive work, if you ask me.

**Q: Why did you choose Dr. Utley?**

I trusted his expertise. He knew what to do and had the tools, technology and talent to deliver on the promise of a dazzling new smile.

With as much work as I had done, you don't choose just an average dentist.

*"Come and see what a great smile we can create for you!"*
