## Real Stories about Real Smiles.

**Q: Why did you have the cosmetic dental work done?**

"Attending the 'What Women Want' exposition was the tipping point for me," noted Bonnie. "I watched Dr. Utley's presentation and saw his 'before and after' photos of previous cosmetic patients and thought: It's my turn!"

"After more than 13 years on dialysis and a kidney transplant six years ago, I wanted to make some positive changes," continued Bonnie. "My health problems caused my teeth to be discolored, plus I had unknowingly been grinding my teeth, so my smile was less than optimum."

"I was embarrassed to smile and self-conscious around others. I wanted to look better and I knew a great smile would play a large part in how I felt about myself. Candidly, it was time to be a little vain in a wonderful sort of way."

**Q: What was the cosmetic dental process like?**

"The first consultation with Dr. Utley guided me through the whole process. He asked questions. He listened. And he made suggestions. I trusted Dr. Utley to recommend the best solution for my smile," said Bonnie. "For example, he consulted with an assistant making sure it was the perfect 'white' for my complexion, always asking for my opinion throughout each process."

"Subsequent visits shaped and prepared my teeth to be a proper foundation for the veneers," said Bonnie. "Impressions were the next step, and then the veneers were custom-made for my teeth. The last two visits were where the real transformation took place. The upper veneers were placed first, followed by the bottom veneers. About four visits from start to finish."

**Q: How did you feel about your new smile?**

"I felt beautiful again," said Bonnie. "I was no longer embarrassed about my smile. People started complimenting me on how good I looked, something I seldom heard during all those years of being so sick."

"What price can you put on the magic of a new smile?" commented Bonnie. "It was one of the best choices I ever made."

**Q: Why did you choose Dr. Utley?**

"I would absolutely recommend Dr. Utley to anyone," said Bonnie. "He really cared about the outcome and created the perfect smile for me. I can't thank him enough. In many ways, this decision changed my life!"

*"Come and see what a great smile we can create for you!"*
