## Real Stories about Real Smiles.

**Q: Why did you have the cosmetic dental work done?**

"Two teeth in the front of my mouth never came in when I was young so I've had bridge work all my life. It's been 25 years since my last bridge so it was time to re-do that along with addressing other issues."

"In addition, I've chipped my front teeth and had major fillings in some of my 'smile teeth'—the ones that show the most. I needed a mini-makeover that combined bridge work, crowns, a veneer and teeth whitening. In all, eight front teeth were involved."

**Q: What was the cosmetic dental process like?**

"The first visit, which also included a cleaning, was a consultation about what needed to be done. Everything was explained in detail including the associated costs and insurance coverage. Dr. Utley took great pains to make sure my questions were answered. The second visit was where most of the work was done; a four-hour appointment. All of the bridgework was removed, and the preparation made for the temporaries. Even though it would take a couple of weeks to get the permanent bridgework back from the lab, Dr. Utley made sure I walked out of the office looking pretty normal with the temporaries. That was amazing. The temporaries looked good and I could go about my life while the permanent replacements were being made. The third visit was to select the final shade of the bridgework teeth. Between visits I was using a whitening tray to brighten my lower, natu-

teeth. The final visit was to install the bridgework and veneer and make sure the look a feel was perfect."

**Q: How did you feel about your new smile?**

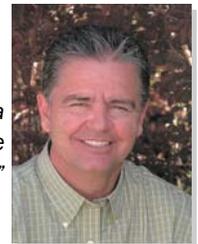

"Candidly, I was worried about having someone work on my front teeth. I was essentially going to lose my smile and if the dentist couldn't get it right, I was going to look good only one day a year...Halloween! However, even the temporaries looked great."

"The final result was just perfect. I have a more beautiful, bright smile now than I've had in years. Dr. Utley did a terrific job and turned back the smile-clock by at least 20 years. I'm really happy with the results."

**Q: Why did you choose Dr. Utley?**

"Dr. Utley specializes in cosmetic dentistry. I don't think just any dentist will do when it comes to changing or fixing your smile, especially with teeth that show. It would be like trusting a country doctor to do brain surgery. You want the best you can find when it comes to giving your smile back."

*"Come and see what a great smile we can create for you!"*
